SUHADAK AKBAR

Backend Developer

Denpasar, Bali | +62 858 4343 9805 | akbarsuhadak@gmail.com | https://suha.my.id/

SUMMARY

A backend developer with 4 years of experience. Proven ability to design and develop scalable web application or web API using Laravel and NodeJS. Eager to learn and improving coding and soft skills.

EXPERIENCE

PT. TIMEDOOR INDONESIA - Denpasar, Indonesia
Backend Developer (Nov 2019 - present)

- Managed, maintained, and refactored a legacy project while developing additional features using Laravel, CodeIgniter (for CMS), and Vue.js.
- Successfully migrated and normalized a client's database from Microsoft Azure to our database, resulting in a cost reduction of 50% per year. Developed a replacement web application for Microsoft Azure, offering improved functionality and efficiency.
- Created a class management web application for the company's internal coding academy, Timedoor Pro Academy. This project has become the highest revenue-generating initiative and encompasses features such as scheduling and teacher management.
- Designed and developed a web API for a marketplace web app and mobile app, integrating Laravel with a payment gateway and logistic aggregator.
- Developed web app for Japanese Language Test' registration with dynamic scalability using AWS load balancer, which can handle thousands concurrent request.This project also use other AWS services like S3, RDS, Elasticache, etc.

OTHER EXPERIENCE

- Developed API for Halo Ustadz App v1 with Express JS. The main feature of this app is voice call between ustzadz and the jamaah.
- Developed Web App for Jamaah's presence on a Mosque with Laravel
